

PRODUCT GUIDANCE SHEET

LEATHER CONDITIONER

OVERVIEW:

A rich cream blend of waxes and oils for the cleaning and conditioning of leather. Cleans and feeds, leaving leather supple but not slippery.

APPLICATIONS:

Can be used on most leather surfaces including vehicle interiors, furniture, saddles, riding tack, shoes and handbags. Can also be used on imitation leather, vinyl and polyurethane to clean and give a great shine.

DIRECTIONS FOR USE:

Shake well before use.

Apply to the leather using a clean, soft cloth.

Work sparingly into the leather using small circular motions.

Leave for 5 to 10 minutes then buff the surface using a clean, dry cloth.

For unfinished leathers such as Aniline a second treatment is recommended as the first coat is likely to be absorbed completely into the leather.

Whilst this product is suitable for virtually all leather surfaces we do recommend testing a small, inconspicuous area for compatibility initially.

HEALTH & SAFETY:

NOTE: COSHH assessments should be performed in line with current legislation to determine the required precautions.

WARNING

May be fatal if swallowed and enters airways.

Repeated exposure may cause skin dryness or cracking.

Keep out of reach of children.

IF SWALLOWED: Call a POISON CENTER or a doctor/physician if you feel unwell.

Do NOT induce vomiting.

IF ON SKIN: Wash with plenty of soap and water.

See MSDS for further information.
