PRODUCT GUIDANCE SHEET

WATERLESS WASH & WAX

OVERVIEW:

A combined cleaner and polish with countless uses designed to eliminate the use of water. Great for waterless cleaning of lightly-soiled car paintwork and plastics but can also be used for cleaning and polishing furniture, dashboards and interior trim. Delicious fruity fragrance.

APPLICATIONS:

Safe for use on most impermeable surfaces including painted metals, plastics, rubber and sealed or painted wood such as laminated furniture, window sills, etc.

DIRECTIONS FOR USE:

BODYWORK

Liberally spray waterless wash & wax onto vehicle body panels. Before the wash dries gently rub with a good quality microfibre cleaning cloth to remove dirt and grime. For best performance and to avoid scratching, fold the cloth frequently to present a clean face and shake off any solid particles. Once the original becomes noticeably dirty, use a new or laundered cloth.

Once complete, buff the panel with a clean, soft lint-free cloth to enhance shine.

For ease of application the surface should not be too hot i.e. out of direct sunlight.

INTERNAL PLASTICS, RUBBER MATS AND DASHBOARD

Spray on and buff off using a clean, dry cloth. Avoid overspray onto glass or clean off using a glass cleaner.

FURNITURE

Spray on and buff off using a clean, dry cloth.

HEALTH & SAFETY:

In compliance with EC regulation no. 1272/2008 and its amendments, this mixture does not present a physical hazard.

See MSDS for further information.
